PROFESSIONAL SUMMARY

Motivated B.E. Computer Science final year student with hands-on experience in Full stack Web Development using Java, React.js, and HTML/CSS. Completed an internship and built personal projects with strong version control skills using Git/GitHub, eager to contribute as a Full stack Developer and deliver impactful software solutions.

PROJECTS

1. Voice Controlled Chess Game

- Developed an offline voice-controlled chess app using VOSK AI, converting spoken commands into validated chess moves without internet connectivity.
- Integrated real-time audio feedback and Pygame-based board rendering, enabling fully hands-free gameplay for users with physical disabilities.

2. AI-Powered Skill Swap Platform

- Built a credit-based peer-to-peer skill exchange platform with a TF-IDF and Cosine Similarity AI engine to match learners with relevant tutors.
- Implemented automated skill verification via MCQ quizzes and Piston API sandboxed code execution, secured with JWT authentication and Argon2id hashing.

3.Smart Travel Planner Web Application (In Progress)

- Building a full-stack travel itinerary app with RESTful APIs for dynamic trip generation, budget tracking, and token-secured admin dashboard.
- Developing an interactive frontend with pie chart budgeting, animated map routing via Leaflet.js, and PDF itinerary export using html2pdf.

SKILLS

- Languages : Java, Python (Basics)
- Frontend : HTML, CSS, React.js
- Backend : Node.js
- Database : PostgreSQL
- Tools : Git, GitHub, VS Code

EDUCATION

Higher Secondary Education

- G.V. Higher Secondary School – Masilapalayam
- 2022 || Percentage : 75 %

B.E. Computer Science and Engineering

- Dr. N.G.P. Institute of Technology – Coimbatore
- 2023 – 2027 || CGPA: 7.5

CERTIFICATIONS AND ACHIEVEMENTS

- 1.Java Cloud Architect — IIE Empowering Dreams, Coimbatore (Currently Pursuing)

Oct 2025

Embarking on a comprehensive 160-hour Java Cloud Architect program that encompasses cloud-based application design, front-end development, Java backend architecture, and cloud deployment strategies, all aimed at creating scalable and production-ready enterprise solutions.
- 2.Generative AI Internship — Gateway Software Solutions

May – June 2025

Completed an industry internship gaining practical exposure to Generative AI tools, prompt engineering, and AI-driven prototyping workflows in a professional software development environment.
- 3.Introduction to Internet of Things (Elite) — NPTEL

Jul – Oct 2025

Acquired strong understanding of IoT architecture, communication protocols (MQTT, CoAP), and sensor-based data processing, earning an Elite grade with a consolidated score of 64%.
- 4.Cloud Computing — NPTEL

Jan – Apr 2025

Gained hands-on knowledge of cloud service models (IaaS, PaaS, SaaS), virtualization, and cloud deployment strategies through a 12-week certified program by IIT Kharagpur.

AREAS OF INTEREST

- Software Development
- Full Stack Development
- Database Management
- Mobile Development
